

SOUTHWINDS AT THE MOORINGS

4.6 CHANGING YOUR LOCKS

If you change your locks, please be aware that we have a single master key approach to provide the Association with access for emergency and management purposes as well as periodic inspection and maintenance.

It is necessary when new locks are created that the Association's locksmith is engaged to synchronize the new lock to the master key.

Any cost associated with this alignment will be covered by the owner.

Please contact Michael Barber at Keystone Property Management Group, Inc. for the locksmith's contact information.
